

Commissioner Pai,

I am in favor of Net Neutrality, but you don't care do you? Your actions make your loyalties known, and the outcome is already set in stone with you. You got your under the table deal to get a high up position back at Verizon for millions after you gut the internet in their (and other ISP's) favor. You should be ashamed at being a corporate whore like this, but you aren't ashamed. You more than likely lack a conscience altogether on this one. I debated writing a comment, and decided to. I am sure you aren't even reading these, because you made your mind up Ajit. You decided the fate of the internet the second you were appointed, and you know it! You a pathetic human being Ajit Pai, and you are a sell out (which you are likely proud of). Don't get it twisted....I know you are soulless and you are perfectly happy selling out the internet and the people in favor of Verizon (your personal pimps), Comcast, etc.

Sincerely,
Dustin Sink

P.S. If there is a hell; you will burn in it.
